Tapered Crush-Proof Vacuum Hose (Round Ribs)

Tapered Vacuum Hoses have the same features as standard crush-proof hoses above but with a unique design that has a 2" 4ft section at the vacuum that gradually tapers down to 1-1/2" at the user end. The 2" section creates more airflow and increased suction pressure at the cuff while the 1-1/2" working end provides added flexibility for the operator.

Features: Crush-proof • UV protected • -40° F. to +160° F • Made in USA • 15ft lengths without cuffs • Abrasion-resistant

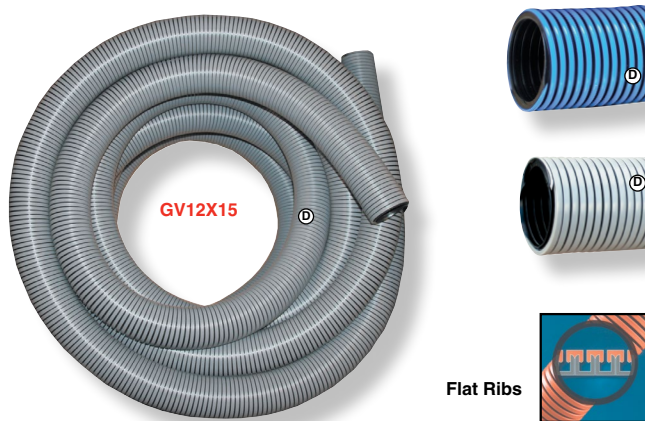

Part No.	Description	* Std. Pkg.
