ST10W

Part No.	Size	Description
DT 5479R	10"	Fillwell
RV 63484	5"	Lid, (New Style after 2001)
DT 5478R	10"	Lid, (New Style after 2001)
RV 60011	16"	Lid with 4" Vent Cap
SN 34300012	16"	Lid with 5" Vent & Ring
SN 34300226	5"	Vent Cap for 34300012 Lid
RV 67104	-	Vent Only for 5478R 10" Lid
RV 63480	8"	Lid with Blue Snap-In Vent, After 2/2/2008
RV 63485	16"	Lid with Blue Snap In Vent & Ring
DT ST10W	-	14-Mesh Basket Strainer for 10" Fillwell
RV 60366	-	Gasket for 5" Lid
DT 5078R	-	Gasket for 10" Lid
RV 5449R	1'0"	Poly Welding Rod
RV 5469R	4"	Threaded Vent Cap for ARAG 12", 16" & 20" Lids

Polypropylene Anti Vortex Tank Flanges

- Prevents Swirl in Bottom of Tank
- Standard with FKM (Viton® Type)

Part No.	Anti-Vortex Flange	Hole Size
TK TF100AV	1" Tank Flange	2-1/4"
TK TF125AV	1-1/4" Tank Flange	2-1/4"
TK TF150AV	1-1/2" Tank Flange	3"
TK TF200AV	2" Tank Flange	3"

Viton® is a registered trademark of DuPont Performance Elastomers

Ace Roto-Mold

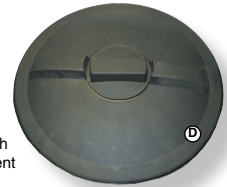

A DIVISION OF DEN HARTOG INDUSTRIES INC.

Replacement Lids & Fittings for Ace Tanks

Constructed of black polyethylene for durability. 5" & 7" Lids include one-way spring-loaded vent. 8", 12", 16" & 22" Lids include breather vent and fillwell ring.

LD30-101
5" Lid with Spring Vent

10528
16" Lid with Breather Vent

10528
16" Hinged Lid with Vent & Ring

10508
2" Poly Bulkhead Fitting

Part No.	Description
RT LD30-101	5" Lid with Spring Vent
RT 12414	7" Lid with Spring Vent
RT 10525	8" Lid with Breather Vent & Ring
RT 10526	12" Lid with Ring, Non Vented
RT 10527	12" Lid with Round Vent & Ring
RT 10528	16" Lid with Breather Vent & Ring
RT 10530	22" Lid with Breather Vent & Ring
RT 10520	Breather Vent Only for 8" & 12" Lids
RT 10529	Breather Vent Only for 16" & 22" Lids
RT 10508	2" Poly Bulkhead Fitting, Santo Gasket
RT 12528	3" Poly Bulkhead Fitting, Santo Gasket

Baffle Ball™ Tank Baffle System

Baffle Balls™ excel at suppressing surges in mobile liquid tanks. Surge tests have demonstrated that the correct number of Baffle Balls™ in a liquid tank will significantly reduce liquid surge, even with an abrupt vehicle stop. Eliminating liquid surge effects improves safety, reduces vehicle drive train stress, and provides longer tank life.

15-3/4" diameter balls will fit into 16" tank openings. Constructed of High-Strength Polyethylene (UV Stabilized). 1/8" thickness and structural ribbing provides high strength & durability. Holes shown so Liquid displacement in tank is only 1.5%. Two piece interlocking construction-will UPS. Quick installation.

To calculate number of Baffle Balls™ required, Multiply 0.075 x Gallons in Tank.

Note: Not recommended for agitating wettable powder solutions or for tanks requiring complete washout when switching chemical solutions (Fluid retention only 1.5 fluid ounces per ball).

Part No.	Diameter	Weight Per Ball
SV 16	15-3/4"	2 lbs.
