

Moldex Responsible™ Respirators

The **Moldex 8000 Responsible™** is a low maintenance reusable respirator that's affordable and disposable. Comes pre-assembled with cartridges.

The low-profile design provides one of the largest fields of vision available. The face piece conforms easily to facial contours and provides a comfortable fit because it's made of a soft, flexible-yet-tough thermoplastic material.

The cartridges are easily replaced and mistreading is eliminated with the 8000's innovative radial mount. With its double-sealing surface there aren't any gaskets to lose. Plus the inhalation valve is located on the cartridges, so with every cartridge change the worker gets a new valve. NIOSH/MSHA approved.

Ammonia Respirator

Part No.	
WL 8402	Ammonia Respirator (Medium)- Complete
WL 8403	Ammonia Respirator (Large)- Complete
WL 8400	Replacement Cartridge - Ammonia per pair

Acid Gas Respirator

Part No.	
WL 8202	Acid Gas Respirator - Complete
WL 8200	Replacement Cartridge - Acid Gas per pair

Pesticide & Paint Spray Respirator

Part No.	
WL 8112	Pesticide & Paint Spray Respirator - Complete
WL 8100	Replacement Cartridge - Organic Vapor - per pair *
WL 8910	Prefilter - Pesticide & Paint - per pair *
WL 8020	Prefilter Retainer - per pair *

* Note: All three required for pesticide and paint spray use.

Full Face Respirators

A Versatile Silicone, Full Face Piece Respirator. The Astroscope® lens is resistant to scratches and most chemicals and allows for unobstructed wide angle vision. Deep chin cup and double flange face seal provide superior comfort and fit.

RU65001

Use for **organic vapors, pesticides, dusts, mists, lacquer paint & enamel mists.**

Part No.	
WR RU65001M	Full Face Respirator, New Style, MEDIUM
WR RU65001L	Full Face Respirator, New Style, LARGE
WR N75001L	Organic Vapor Cartridges for RU65001 (Pair)
WR N75004L	Ammonia Cartridges for RU65001 (Pair)
WR 7506N95	Non Oil Pre-Filter for RU65001 (Box of 10)
WR N750036	* Pre-filter Housing, Pack of 2

* Required when pairing with vapor cartridges.

MSA Gas Mask

Provide maximum visibility and wearing comfort while protecting the lungs and eyes against toxic atmospheres. Ideal when handling **Anhydrous Ammonia, or during Grain Fumigation, Pesticide mixing or Greenhouse Spraying.** Meets Federal Safety Standards.

Canisters carry standard markings designating the application, as required by the U.S. Bureau of Mines. Variables such as concentrations of gas in the atmosphere, humidity, rate of breathing and the specific nature of the vapor all have a bearing on the canister life. **Caution:** Gas masks should not be used in oxygen-deficient areas (less than 19.5% oxygen) or in gas concentrations exceeding 2% by volume, except ammonia where the limit is 3%. **Masks are NOT supplied with canister - Must order separately.**

Replacement Canister

N95 Dust & Mist Respirator

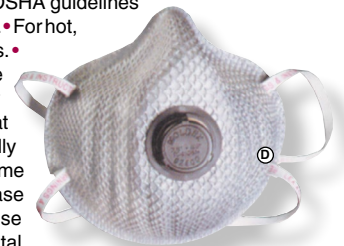

No. 2200 is NIOSH approved for use with dusts from handling dry fertilizer, livestock barns and shelters, haying, grinding feeds, bailing and combining. This respirator is not designed to be used for protection against fumes, gases, vapors or in areas containing insufficient oxygen to support life. Packaged 20 per box.

Part No.		Std. Pkg.	DISCOUNT Per 12 Boxes
WL 2200	Dust Respirator	20	10%

N95 Dust & Mist Respirator with Exhale Valve

No. 2300 Features: NIOSH/MSHA approved for dusts and mists with a PEL not less than 0.05 mg/m3. Meets OSHA guidelines for use up to 10 x PEL. TC-21C-350. • For hot, humid and demanding applications. • Exhale valve lets workers breathe easily and stay cool. • Molded poly mesh shell resists collapsing in heat and humidity. • Face piece is naturally contoured for a comfortable fit. • Flame retardants are added to decrease flammability of shell. • Molded nose bridge maintains seal without a metal band. • Packaged 10 per box.

Part No.		Std. Pkg.	DISCOUNT Per 10 Boxes
WL 2300	Dust Respirator	10	10%

Disposable Non-Toxic Dust Mask

No. 1100 is designed for use against non-toxic particles and nuisance dusts, such as pollen and alfalfa, only. Not to be used in spraypainting, nor for protection against silica, asbestos or any other toxic dusts, fumes, mists, vapors or gases. Packaged 50 per box.

Part No.		Std. Pkg.	DISCOUNT Per 12 Boxes
WL 1100	Dust Mask	50	10%
