

Dip & Stack Brushes

Standard Dip Brushes

Dip and Wash Brushes for the truck wash and fleet wash markets. Designed for use with coarse thread handles. Available with straight or bi-level blocks and in a wide variety of bristles and styles. Bi-level blocks are designed to keep the brush on the vehicle surface at any angle.

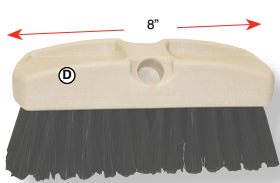

STRAIGHT BLOCK DIP BRUSHES

23540 features lime green, polyester bristles. Size is 10" x 3-1/4". Bristles are 2-1/2" long. Our most popular truck wash brush.

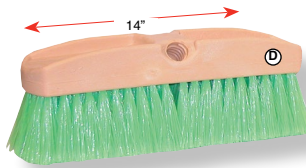

1209 & 1209L feature yellow, acid resistant Styrene bristles. Very soft for many uses. *The fullest filled block that we sell.* Size is 10" or 18" x 3-3/4". Bristles are 2-1/2" long. Rated to 175° F.

0408 features stiff bristles for more aggressive cleaning. Acid resistant. Size is 8" x 3". Bristles are 1-1/2" long. Rated to 250° F.

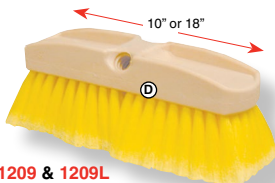

22320 is an extra wide brush which features nylax bristles. Size is 14" x 3-1/4". Bristles are 2-1/2" long. Rated to 250° F.

Tri-Level Dip Brushes

Full Filled, Tri-Level Brushes are the perfect choice for Car and Truck washing and detailing. Wider design means there are always bristles on the vehicle surface, this minimizes the brush block from contact with the vehicle.

For use with coarse thread handles shown on other pages. Soft Bristles are either Nylon, Styrene, Natural Hogs Hair or Synthetic Hogs hair. (Discount for quantity purchase).
