

Wilger Spray Monitors provide accurate monitoring of all spray tips or orifices on planters with a quick glance. Modular, flexible and durable. Bodies constructed of tough UV-Resistant Polymethylpentene. Inlet and outlet fittings made of polypropylene and Celcon.

FEATURES:

- Modular Design with individual columns & Wilger's innovative o-ring seal & joint clip allows you to quickly assemble "banks" to fit your requirements.
- Various Inlet & Outlet Sizes in straight & 90 degree hose barb styles.
- FKM O-rings are standard (*Viton® available*); *Stainless u-clips*.
- Each Monitor Column Includes (4) indicator balls (*Green, Red, Maroon & Silver*).
