

Piranha Sewer Hose

Piranha Sewer Hoses are constructed to provide rugged and reliable service under the most severe conditions found in high pressure sewer cleaning. All hoses feature a yellow Olefin tube with single or double braid reinforcement. Urethane covers are color coded to WASTEC specifications and provide exceptional cut, abrasion and fungus resistance. Rated for -40° to 150° F. (*190° F. on some sizes). Available in a wide variety of lengths and styles to meet your needs. All assemblies are standard with Male NPT hose ends matched to the hose size shown. (Other lengths and hose ends are available on request).

SP Orange Hoses are rated to 2500 PSI. Single, high tensile braid reinforcement with orange cover. Available in 3/4", 1" and 1-1/4" I.D. sizes.

Hose Drainer Tool

Eliminates Bending & Lifting While Draining

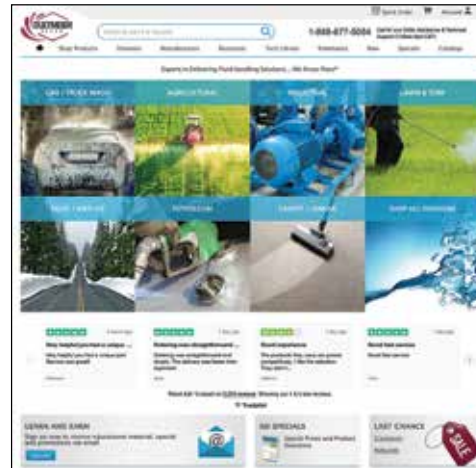

Designed to improve the well being and safety of truck drivers and workers alike, this hose draining tool eliminates awkward bending and lifting while draining high-volume discharge hoses. No more manual lifting! Operators simply slip the hose drainer beneath the hose and walk alongside, allowing gravity to drain any residual product back into the tank. Lightweight powder-coated aluminum tubing, poly roller & padded handle. Adjustable from 18" to 25-1/2" long.
