

300 & 500 Gallon Trailer Sprayers & Booms

Heavy-Duty Trailers for a Wide Variety of Spraying Applications. All models include 300 or 500 gallon elliptical tanks with sumps and 10" fillwells, heavy-duty steel frames with 90" axles, 11L x 15 tires, tongue hitch, heavy duty jack and centrifugal pump hose kit. Wash tank, strainer, and tank agitator also included. Boom, pump and controls sold separately.

TS300PT43 includes special "Combination" boom with 11" overall width and with boomless nozzles on each wing for spraying up to 43' overall width (*each wing sprays 16' and center section sprays 11'*) Includes *Hypro* 1700C roller pump/multi-speed coupler. 3 Section control (*switch box*) with manual valve pressure control. End boom sections are "breakaway" style and fold for transport (*8' transport width*). Great for pastures, acreages, tree and hilly areas and ditches. Applies 10 GPA at 4 to 5 MPH.

TS300PT is the same sprayer but with boomless nozzles (*no boom*) for spraying up to 35' with two section left/right boom control (*switch box*), manual valve pressure control and *Hypro* 1700C pump/coupler.

500 Gallon models are high clearance and include large work area with handrail. Use tandem axle version for rough, uneven ground.

300 Gallon Trailer Sprayer shown with "Combination" Boom for 43' Coverage
