Remote Dispensers Professional Grade

QM40-RD Remote Dispenser provides ground-level access to meter and nozzle when used with in-ground or above-ground tanks. Remote dispenser that includes QM40 Fuel Meter, solenoid valve and lockable nozzle holder (purchase pump, nozzle and hose separately).

QM Series Fuel Meter Benefits:

Extremely accurate with a +/- 1/2% across a flow range from 2 to 40 gallons per minute • The Mag Drive mechanism is nearly frictionless so fuel flows freely through the meter - less friction results in more flow • Oval gear technology usually found in meters costing 10 times as much • 115/230 Volt • 1" inlet/outlet and is U.L. Listed.
