

Liquid Blockage Monitor System

Now You Can Know Your Liquid Application Flow from the Cab of Your Tractor!

Now you can know your liquid application flow from the cab of your tractor. Identify which row is being under applied before your yields are diminished, saving valuable time and money. This system shows you both **low-flow and no-flow** problems now, which means you can correct it immediately. No more second guessing if any of your delivery lines are plugged! **Note:** Can also be used for NH3 with BU SMFD4-NH3 VisaGage Flow Monitor.

Premium System (Wireless)
i-Pad® Based

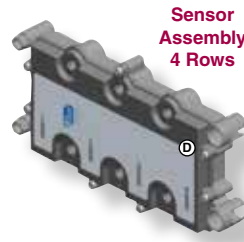

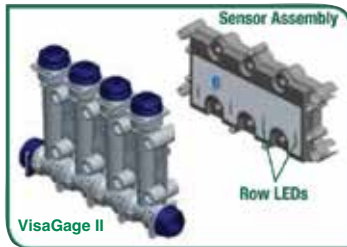

Features of the CDS-John Blue Liquid Blockage Monitor System:

- Uses magnetic sensing technology mounted behind the VisaGage II Flow Monitors.
- Sensors can be mounted to existing VisaGage II's, new magnetic balls are supplied with sensors.
- Identifies where magnetic balls are floating in each row during liquid application.
- Only LBMS shows both no-flow and low-flow. Plus the premium I-Pad® based systems displays high flow, indicating broken tubing or fittings.
- See a visual display and hear an audible alarm on the control panel from your tractor cab.
- Each row with a problem will be highlighted by a flashing LED light at the row. No need to remember or search for which row is blocked after you come to a stop.
- Can be used with cloudy or dark liquids - LED is visible to the column sides.
- The alarm will reset automatically when the blockage has been corrected.
- Includes the ability to "Pause" the system to capture problem rows for investigation later when you are able to stop.
- LBMS I-Pad® and other tablet apps are free.

Standard Control Panel (Wired)

Flow Monitors Not Included - See Other Pages

Order (1) Main Kit (8 Rows) Plus 4 Row Expansion Kits to Cover All Your Rows (extra rows or expansion kits are fine)

Premium WIRELESS System (iPad 2 or Newer Display Running IOS 6 or Higher) *	
Part No.	Description
BU BMI-08	Premium 8 Row Kit Includes: iPad Ram Mounting Bracket, Power Harness, 28 ft. Extension Harness, Wireless Sensor Kit, Standard Sensor Kit and (2) Terminator Plugs
BU BM-08ISO	Premium 8 Row Wireless Kit: ISOBUS
BU BM-08ISO-JD	Premium 8 Row Wireless Kit: ISOBUS for John Deere
Standard WIRED System *	
Part No.	Description
BU BM-08PL	Standard Wired 8 Row Kit Includes: Control Panel with Mount Bracket, Input Harness, 28 ft. Extension Harness, Tee Harness, (2) Standard Sensor Kits, (2) Terminator Plugs and (2) 15 ft. Extension Harnesses
4-Row Expansion Kit	
Part No.	Description
BU BMPT-001	4 Row Sensor Expansion Kit for adding to BMI-08, BM-08AP and BMPT-08PL: Includes Standard Sensor, Tee Harness, Magnet Balls and Hardware
Spare Parts	
Part No.	Description
BU BMPT-002	Standard Sensor (Replacement)
BU BMPT-013	15 ft. Harness, Extension Cable
BU BMPT-015	Terminator Receptacle (Replacement)
BU BMPT-023	RAM Mounting Bracket for IPAD
BU BMPT-003	Wireless Sensor ONLY (Non ISO)

* VisaGage II Flow Monitors are ordered separately.
