

## HYPRO®

### Universal Flange Clamps

**Hypro Flange Clamps** for manifold systems. GXT Polymer with UFG EPDM flange gaskets. Compatible with Banjo flange connections. 1" to 2" rated to 150 PSI and 3" rated to 125 PSI.

**10% Discount on Pkg. of 10**

Part No.	Description
HY C100	1" Flange Clamp & Gasket.....
HY C150	1-1/2" & 2" Flange Clamp & Gasket.....
HY C200	2" Full Port Flange Clamp & Gasket.....
HY C300	3" Flange Clamp & Gasket.....

## Flange Gaskets HYPRO®

For Use on BANJO or Other Manifold Flange Connections

Part No.	Description
HY UFG0100E	EPDM Flange Gasket, 1".....
HY UFG0150E	EPDM Flange Gasket, 2" <b>Std. Port</b> .....
HY UFG0200E	EPDM Flange Gasket, 2" <b>Full Port</b> .....
HY UFG0300E	EPDM Flange Gasket, 3".....
HY UFG0100V	Viton® Flange Gasket, 1".....
HY UFG0150V	Viton® Flange Gasket, 2" <b>Std. Port</b> .....
HY UFG0200V	Viton® Flange Gasket, 2" <b>Full Port</b> .....
HY UFG0300V	Viton® Flange Gasket, 3".....

**10% Discount on Pkg. of 100**

### New Universal Flange Clamps

### Old Worm Gear Clamps

Clamshell design holds fittings in place before tightening the bolt for easy assembly. The worm gear clamps need to be engaged before being capable of holding fittings in alignment.

Captured nut and bolt design reduces assembly and maintenance time by eliminating the need to feed a track through the worm gear.

Improving safety through elimination of sharp edges that can harm operators.

Viton® is a registered trademark of DuPont Performance Elastomers

## Tank Fittings with Manifold Connections

- Glass Reinforced Polypropylene.
- EPDM or Viton® Gaskets.
- Flanged Connections.
- Gaskets & Clamps Sold Separately.
