

## Trailer Washout Systems

**Ideal for Applications that Require High Volumes of Clean Wash / Rinse Water**

**Pumping Systems** designed for high flow rates at moderate pressures. Ideal for washout and cleaning of livestock trailers, tank trucks, delivery vehicles and any other applications that require high volumes of clean wash/rinse water.

Trailer Washout units are rated to 24 GPM and 450 PSI and have the following **Features:** Single or three phase motors with manual stop/start controls • Stainless steel baseplate and belt guard • Belt tightener • High flow pressure regulator • 7-1/2 HP Baldor motor • Double groove pulleys with cog belts • 100' of 3/4" wash hose • Adjustable pattern spray wand • Pre-plumbed and ready for hookup, (motors and starters must be wired to your power source).

Systems can be direct fed or water can be supplied from an optional supply tank. (Various hose reels, supply tanks and catch basins are available, but not included).

Hose

Adjustable Spray Gun

**Some Items Built to Order - Call for Availability -**

Part No.	Motor	GPM	PSI	Wt. Lbs.
DU TWO251	7.5 HP / 1 Phase	24	450	225
DU TWO253	7.5 HP / 3 Phase	24	450	210

## Coil Cleaning/Descaling Pumps

**Helps Eliminate Calcium Buildup & Lime Scale**

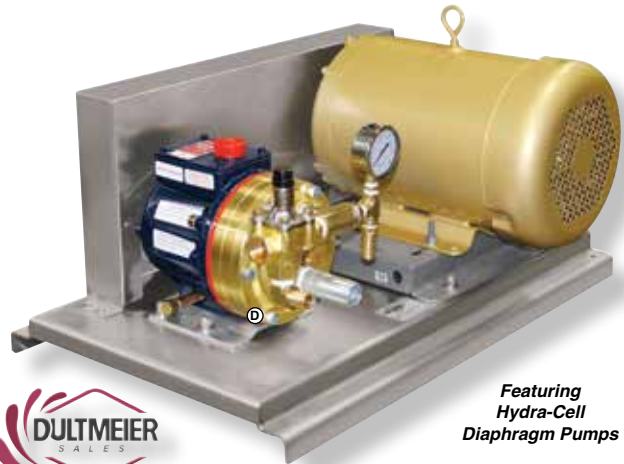

Designed to introduce descaling chemicals and solutions into hot water pressure washer coils. Helps to eliminate calcium buildup and lime scale deposits. Extends the time required between coil cleanings. 2.5 RPM motor with 30 inch power cord is rated to .037 gallons per hour. Draws from your bulk descaling solution and transfers to the water supply tank on your pressure washer, which in turn feeds to the coil. Available in different voltages to meet your specific needs.

Part No.		Voltage
NP ST15	Coil Cleaning Pump	115 VAC
NP ST15-230	Coil Cleaning Pump	230VAC
NP ST15-12	Coil Cleaning Pump	12VDC

## Pumping Units Also Available for Reclaim Water

Featuring Hydra-Cell Diaphragm Pumps

### Excellent Customer Service

"Each time I've ordered from Dultmeier, I've received fast, friendly service. My recent order arrived and upon opening the package, I found a crack in the cylinder of the solenoid. Upon notifying Dultmeier, they immediately shipped out a replacement part. I appreciate the concern and care they took to make sure I had what I needed quickly. Whether you call or order online, the service is excellent! This is my go to place for pressure washer parts for my business".
