

Ready To Go High Pressure Pump Units General and AR Plunger Pumps

Pre-Plumbed General and AR Plunger Pumps Units. All models include pump, inlet fitting, unloader valve, thermal relief valve, bypass hose, discharge quick coupler and flange for correct engine mounting. **Note: All AR Pump Packs also include downstream chemical injector with tubing.**

Pump packages allow for a complete pump unit to mount directly to your existing gas engine for simple and easy replacements in the field. All units mate up to 3/4" or 1" engine shafts as shown. Required HP sizes are for full flow and pressure as noted.

General Pump Packages

IP PMRET1507G6 (ET Series)

- For 8 - 9 HP Gas Engines with 3/4" Shaft
- Rated to **3.3 GPM @ 2600 PSI**
- Rated for 3400 RPM

AR Pump Packages

AR RSV3G30PKG (RSV Series)

- For 8 - 9 HP Gas Engines with 3/4" Shaft
- Rated to **3 GPM @ 3000 PSI**
- Rated for 3400 RPM

IP PMREP1508G8 (EP Series)

- For 10 - 12 HP Gas Engines with 1" Shaft
- Rated to **3.4 GPM @ 3000 PSI**
- Rated for 3400 RPM

AR RSV3G34PKG (RSV Series)

- For 10 - 11 HP Gas Engines with 1" Shaft
- Rated to **3 GPM @ 3400 PSI**
- Rated for 3400 RPM

IP PMRPEP1313G8 (EP Series)

- For 13 - 15 HP Gas Engines with 1" Shaft
- Rated to **4 GPM @ 4000 PSI**
- Rated for 3400 RPM

AR RRV4G40PKG (RRV Series)

- For 12 - 13 HP Gas Engines with 1" Shaft
- Rated to **4 GPM @ 3600 PSI**
- Rated for 3400 RPM

IP PMREZ4040G (EZ Series)

- For 13 - 15 HP Gas Engines with 1" Shaft
- Rated to **4 GPM @ 4000 PSI**
- Rated for 3400 RPM

AR RSV4G40PKG (RSV Series)

- For 13 - 15 HP Gas Engines with 1" Shaft
- Rated to **4 GPM @ 4000 PSI**
- Rated for 3400 RPM
