

Manual Toggle Switches or Push Start/Stop

Commercial Vacuums are ideal for use in truck washes, car dealerships, detail shops, car rental agencies or anywhere “Free Vacuuming” or options to shop vacuums are desired.

Standard with On/Off toggle switches, but Push to start kits with time out or Push start, push stop with time out are available options (*Time out features ensures that vacuums will turn off if customer leaves running*).

Standard Features

- Stainless steel construction with stainless domes or lighted poly domes (*red, green, yellow, blue or white*).
- 2" x 15' Vacuum hose with claw tool (*choice of colors*).
- Double service doors for lower cleanout and upper filter access.
- Four filter bag design for added filtration.
- 110 Volt or 220 Volt options (**Note:** ETL approved on 110 volt models only).
- **No. 9235-3DH** features (2) hoses for dual vacuuming at the same time.
