

BALDOR • RELIANCE Electric Motors

General Purpose Electric Motors from ABB/Baldor. Designed to meet or exceed the energy efficient requirements in the United States, Canada and Mexico. Totally enclosed, fan cooled design for applications with exposure to water, dust and corrosives. Robust, heavy gauge steel construction with greaseable bearings and foot mount bases. Commonly used as drivers for pumps, fans, conveyors, machinery and more. Standard Face or C-Face styles. **(50 Hz use reduces HP ratings on some models).*

Note: Larger HP, ODP, explosion-proof and extreme duty motors also available on request.
