

Standard Pumps will Handle E15 & B20 Fuels. Any Mixtures Higher Than This See Conversion Kits

FILL-RITE NX25 Series Pedestal & Foot Mount Fuel Transfer Pumps

120V & 240V with Nextec Intelligence™

The **NX25-120** and **NX25-240 Fuel Transfer Series** allow fleet managers to fuel all day with less downtime due to short duty cycles or overheating. These industry-leading pumps are equipped with a variable speed motor and **Fill-Rite's Nextec Intelligence™** technology for elite performance in harsh applications. It's low profile, lightweight construction eases installation while still moving fuel more efficiently.

Features:

- Continuous Duty
- Intelligent Technology
- Variable Speed Motor
- Lightweight
- Auto Power Down
- Magnetic Switch
- Reduced Vapor Lock
- Slow Down in Bypass
- Remote On/Off

NX25 Pumps	
Flow Rate	25 GPM
Voltage	120 Series 120VAC 240 Series 240VAC 50/60 Hz
Inlet/Outlet	1-1/4" / 1" NPT
Mounting	2" NPT Bung or Foot Mount
Horsepower	1/3 HP
Compatible Fuels	Diesel, Gasoline, Biodiesel up to B20, Gas to E15, Kerosene, Mineral Spirits, Methanol (up to 15%)
Duty Cycle	Continuous Duty for Fuel Transfer
Warranty	2-Year Warranty
Certifications	UL/cUL
Temperature	-15° F. to 125° F.

FILL-RITE Arctic Duty Fuel Transfer Pumps

Ideal for Use in Harsh Winter Climates

Rugged and Arctic Ready Pumps are ideal for use in harsh winter climates, delivering the power and performance you need to keep your fuel flowing as the temperatures drop. They feature carbon vanes and ceramic/carbon seals to reduce wear and maintenance expense, and an integral check valve with pressure relief on outlet side to reduce pressure drop and improve vertical lift. Best of all, these are the quality products you expect from **Fill-Rite**. All pumps are rated to -20° F. and all accessories to -40° F.

Ideal For:

- Northern Climates
- Construction
- Logging & Mining
- Emergency Response
- Mobile Tanks
- Ski Resorts

Add Fill-Rite accessories rated for operating at temperatures as low as -40° F to any of your existing pumps.
