

KZVALVE Boomless Golf Course Rough Sprayer Kits

Introducing the latest sprayer innovation for golf course superintendents and turf management professionals—the **KZValve Boomless Rough Sprayer Nozzle!** Designed for operator convenience and cost savings, these boomless spray nozzle kits provide up to 15' (single boom) or 30' (double boom) of added spray coverage. Kits eliminate the need for time consuming spot spraying with wand and hose reel setups and maximize the number of passes sprayer operators must make—therefore reducing operation time, product costs, and course impact.

Kits Include: KZValve ZIPValves • Switchbox • Mounting Brackets/ Hardware, Cabling & Plumbing components in necessary quantities • Spray tips sized per application & sold separately.

System Highlights:

- Increased spraying efficiency—15'-30' added spray coverage possible
- Eliminates need for manual spraying with wand & hose reel
- No-hassle spraying around hazards & tough-to-reach areas
- Gets rid of unattractive course maintenance impacts like sprayer tracks/depressions
- Simple yet effective design—easy to install & operate
- Universal mounting bracket & hardware for any boom size/shape
- KZ3/8" ZIPValve with QD ports & Deutsch electrical connection
- 1/2" Hose barb inlet; 1/2" or 3/4" FNPT outlet fittings
- One or Two On/Off Switchbox Controller

Great for Spraying Along Fence Lines, Hillsides, Bunkers & Water Hazards

With its diverse applications and simple yet effective design, the KZ Rough Sprayer Nozzle will ensure your fairways, roughs, bunkers, and other course features maintain the highest quality appearance and performance. But don't just take our word for it, check out these superintendent testimonials:

"Used the Boomless Rough Spray Nozzle with a wetting agent on bunkers, and it was a major time saver for sure."— Greg Jones, Champions Run, Omaha, NE

"We have some tough areas to hit with our sprayer and this will give us an additional 15' of spray."— Scott Schurman, LaFortune Park Golf Course, Tulsa, OK

Valve Controllers

SC
Controllers

The **SC Waterproof Controller** enables users to control (1) regulating and (3) section valves with the convenience of individual valve control & master On/Off buttons. Features a sealed, waterproof case, high-intensity LED's, and automatic light sensor. Mounts to bracket or directly to dashboard. Includes 25' extension harness and mounting bracket.

EHPT & EHSX Switchbox Controllers can control up to (5) On/Off section valves and (1) rate control valve and feature a master On/Off switch. Control switches for EH2, EH3, EH5, and EH7 waterproof actuators. LED feedback lights indicate when valves are "On." **EHPT Models** include 12' power lead and 5' On/Off cord—no extension. **EHSX Models** include 12' power lead and 5' On/Off cord with 25' extension harness.
