

Blue Clean Pro Pressure Washers

(Industrial Professional Line)

Blue Clean Pro Series Pressure Washers from AR North America. Electric pump/motor units built for commercial, continuous-duty applications. Compact, portable and easily moved as needed. All models feature Triplex Plunger Pumps with ceramic pistons, brass pump heads and double pack industrial seals.

Available in hand carry or wheeled cart versions. Also available with Manual stop/start switch or with auto stop/start feature that turns units on or off via the trigger wand. All motors are 2 HP, single phase, 120volt, 60Hz. Amp ratings are 15 or 20amp as shown.

(Note: Water temp rating of 120° F. or 180° F. is the maximum temperature that can be "supplied" to a machine as shown. These washers can transfer but do not create hot water).

All models include pump, motor, trigger wand with extension and adjustable spray nozzle, 25' pressure hose, 20' GFCI power cord, chemical injector, adjustable pressure valve, pressure gauge, Garden hose inlet fitting.
