

TX4 from *Turtle Wax* is a newly formulated 4-stage process designed with ingredients that work together in synergy to offer superior cleaning, protection, water beading and shine in your tunnel wash. Hyper-concentrated formulas are Reclaim system Compatible and Biodegradable.

Engineered to maximize the absorption, (the particles that stick to a vehicle surface) of each product to not only prepare the surface for optimal cleaning and lubricity but also to work with the ceramic polymers and solvent emulsions in the sealant and drying agent to maximize protection, water beading and shine.

An added benefit is you can wash cars with less water lowering your cost per car.

TX1 Power Soak is the first step in the TX4 process. This product produces a dense, penetrating foam that effortlessly removes dirt and oils from the vehicle surface and sets up step 2. Citrus scent, White. Ph 8-9. Sold in 5 gallon pails. Up to 2200 cars per pail, 5-12mls per vehicle.

TX2 Power Clean is the 2nd step in the TX4 process. This foaming detergent rinses away ions and minerals to remove all soils on the vehicle. A combination of acid components adjusts the Ph at the vehicle surface which is a vital component for the final 2 steps of the process. Unscented, White. Ph 3-5. Sold in 5 gallon pail. Up to 2100 cars per pail, 6-12mls per vehicle.

TX3 Power Shine is the 3rd step in the TX4 process. This unique sealing product forms a protective layer of ceramic polymers that are bonded to the vehicle surface protecting it from rain and harsh weather and setting it up for the final step. Grape scent, no color. Ph 6.5-9.5. Sold in 5 gallon pail. Up to 2100 cars per pail, 9mls per vehicle.

TX4 Power Dry is the 4th step is a drying agent with water-based emulsion of non-polar solvents. These work together with the ceramic layer of TX3 to break and bead water on the surface to produce the driest car possible. Unscented, no color. Ph 6.5-9.5. Sold in 5 gallon pail. Up to 3400 cars per pail, 4-7mls per vehicle.
