

Parts Washers

Solvent-Free, Aqueous Design

Environmentally Friendly, Aqueous Parts Washers save time and money when cleaning dirty, grimy and greasy parts and equipment. All models are designed to operate with hot water and biodegradable detergents, no solvents or aerosol cleaners are needed.

Heavy-duty, steel construction and quality components for long life and trouble-free operation. Ideal for industry, factories, agriculture, repair facilities and anywhere dirty parts need to be cleaned.

Available with **Single** or **Three Phase** motors in a variety of sizes and pump capacities as shown. *(Seven day automatic heat timers are available as optional add-on).* All models are rated to 170° F.

W10 is a **Top Load** style. Solution capacity is 25 gallons. Pump is rated to 36 GPM @ 40 PSI. Low water shut-off is included. Dimensions are 52" high x 40" wide x 34" deep. Turntable diameter is 24" and is rated to 300 lbs. capacity. Heater is 4.5 Kw. Pump motor is 2 HP, single phase, 230 volt.

W12 is a **Front Load** style. Solution capacity is 50 gallons. Pump is rated to 50 GPM @ 45 PSI. Dimensions are 65" high x 52" wide x 46" deep. Turntable diameter is 26" and is rated to 500 lbs. capacity. Heater is 6 Kw. Pump motor is 3 HP, single phase, 230 volt.

W12-4 is a **Front Load** style. Solution capacity is 70 gallons. Pump is rated to 90 GPM @ 60 PSI. Dimensions are 78" high x 60" wide x 41" deep. Turntable diameter is 26" and is rated to 800 lbs. capacity. Heater is 12 Kw. Pump motor is 5 HP, three phase, 230 volt.

W12-6 is a **Front Load** style. Solution capacity is 120 gallons. Pump is rated to 100 GPM @ 60 PSI. Dimensions are 84" high x 72" wide x 52" deep. Turntable diameter is 36" and is rated to 1000 lbs. capacity. Heater is 12 Kw. Pump motor is 7-1/2 HP, three phase, 230 volt.

H500F2 Parts Washer Detergent is a non-foaming detergent that is a great choice for most any parts washer. Contains an exclusive corrosion inhibitor that prevents flash rusting and darkening of brass. Can be used on metals, paints, plastics, stainless steel, brass and aluminum. 100% active ingredients with no chelating agents. Sold in 40 lb. pails. **Can be shipped by UPS.**
