

**CNT-R-KUT™ Elite Max Kit**

This root cutting kit is designed to allow the operator to work in tight drain and sewer lines where other water driven mechanical nozzles fail to get the job done. The **CNT-R-KUT™ Elite Max Kit** comes with everything operators need to successfully complete the job. The Elite Max is designed to clean a pipe using a rotating head which can be equipped with a linked chain, roller chain, cable or just water jets. The standard **CNT-R-KUT™ Elite Max Kit** comes with:

- Three Centering Guides – 1 of each size (3", 4", 6")
- Stainless Steel Body (1)
- Rotor Head for Chain (1)
- Cable Set (3) / Chain Set (3)
- Carrying Case
- Spare Guide Vane Screws & Miscellaneous Hardware & Orifice Cleaner
- Chain/Cable Attachment Bolts
- Utility Knife, Straight Edge, Sliver Marker Included
- 3/32" Allen Wrench (1) & 1/16" Allen Wrench (1)

**CNT-R-KUT™ Centering Device Max**

If you've ever had a Warthog® nozzle or other rotary jetter nozzle take off down a line on you and lodge itself in a crevice – you know the headache that follows. Take that headache out of the equation with the **CNT-R-KUT™ Centering Device**. This product can be used with virtually any rotary jetter nozzle to help ensure the nozzle maintains a consistent center point throughout the line. Simply attach your hose to one end of the Centering Device and your favorite rotary nozzle on the other end. The **CNT-R-KUT CD Max** is flexible enough to conform to deformed or damaged lines and can be easily fitted to in the field to fit any line diameter from 2" to 8".

**AQUA-ROCKET™**

**Turbo/Laser Nozzles**

Longer Life Than Standard Ceramic Nozzles

**Aqua Rocket** and **Aqua Rocket Pro** Industrial Turbo Nozzles from Hydra-Flex. Rotating water stream design means exceptional cleaning on almost any surface. The perfect choice for concrete cleaning, heavy equipment, graffiti removal, food processing equipment and more.

Zero-degree impact in rotating 22-24 degree coverage pattern. Stainless steel bodies with heavy rubber protective covers. Tungsten Carbide nozzle tips. Rebuildable. Inlets are 1/4" FPT. Made in USA.

TWO GREAT OPTIONS TO MEET ALL YOUR CLEANING NEEDS

**Aqua Rocket** nozzles are rated from 750 to 3600 PSI and 150° F. Flow rates from .9 to 5.7 GPM. Yellow cover.

**Aqua Rocket Pro** nozzles are rated from 1500 to 5600 PSI and 212° F. Flow rates from 1.8 to 11.8 GPM. Blue cover.

**Water Sandblast Kit**

For Suction-Fed Injection of Sand Into the Water Stream for Abrasive Cleaning

**Water Sandblast Kits** are designed for suction-fed injection of sand into downstream line of common pressure washers. Ideal for abrasive cleaning and removal of paint, rubber, metal scale and rust from a variety of surfaces. Rated from 1500 PSI to 5,000 PSI and 3 GPM to 10 GPM. Maximum temperature is 200° F. Kit includes sand nozzle, mixing head, nozzle holder, sand probe and 10' of supply hose.

**Note:** High pressure, zero degree nozzle is not included and must be matched to pressure washer flow and PSI. Can ship with kit but is billed separately.

<b>Part No.</b>	<b>Flow Range</b>	<b>Pressure Range</b>	<b>Wt.</b>
IP DWSDBTk	3 GPM - 10 GPM	1,500 to 5,000 PSI	10 lbs.
