

Mini B Series Tank Level Monitoring Packages

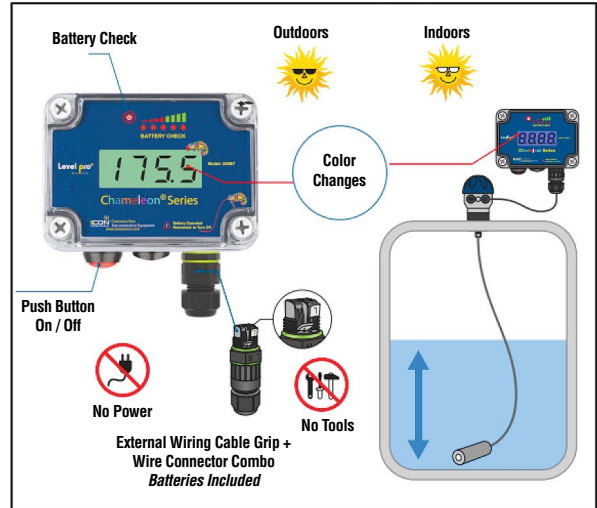

The **Mini B Series Tank Level Monitoring Packages** are everything you need in one part number. No programming, no tools, and no drilling. Simplicity at its finest. Standard sensor options are either PVC or 316 Stainless Steel. Polypropylene, PVDF, and PTFE Teflon® are available options – **Call for Details.**

Levelpro 100 Series Sensors have a Kalrez® O-Ring seal and boast a non-floating design. The ceramic sensing diaphragm allows for a non-clogging sensor design. The **Levelpro 100** is extremely accurate with a rating of +/- .5%. Controllers are NEMA 4X Enclosure. Call with solution specifics and tank dimensions prior to ordering and we will coordinate pre-programmed delivery from the factory – it makes start-up a breeze. Battery Operated B2 packages come with a “deadman” switch that automatically powers down the display after 60-seconds.

Mini B1 Series Powered

Mini B2 Series Battery Operated

100 Series Sensor

LP100 Junction Box

Junction Box Features:

- All Plastic NEMA 4X Enclosure
- 2” MPT Tank Connection
- Self-Draining / Tethered Lid
- VaporBloc® Sealing System Eliminates Corrosion On Wiring Connections

Part No.		Power
IC 191-WP	LED Display, PVC Sensor, Junction Box, B1	120V
IC 300S-WP	LED Display, 316SS Sensor, Junction Box, B1	120V
IC 191-BO	Battery Operated Display, PVC Sensor, Junction Box, B2	Battery
IC 300S-BO	Battery Operated Display, 316SS Sensor, Junction Box, B2	Battery

Service and Production Department

Dultmeier Sales engineers and builds a large variety of pumping systems, including “Custom Packages” to meet your unique needs. We build centrifugal, gear, diaphragm, fuel and DEF pumping systems. We also build Liquid De-Ice & turf / tree sprayers, chemical inductors, manifolds, load arm systems & more.
