

SNI SNYDER INDUSTRIES, INC. Poly Septic & Cistern Tanks

NexGenD2 Septic Tanks from Snyder Industries offer several advantages over the competition. These rotationally molded, rugged, one-piece tanks have no seams – which means no leaks. There are no special backfill or water filling requirements during installation. These tanks are lightweight and can be moved into position without the use of heavy equipment. Designed for non-traffic installations. IAPMO Tanks are available – Call for details.

- May be pumped dry during pump-outs
- Suitable for use as a septic tank or pump tank and may also be used for non-potable water
- Tanks shipped with PVC tees and gaskets (*Illinois Requires 6" tee inlet – call for details*)
- Access openings and lids accept NexGenD2 manhole extension, double wall corrugated pipe, and ribbed PVC pipe
- May be installed with 6" to 36" of cover
- Recommended Max Temp of Effluent is 120°F
- Each tank has (2) 20" Manholes
- 4" Inlet/Outlet
- *Manhole Extensions and Other Accessories Available – Call for Details*

SNI SNYDER INDUSTRIES, INC. Small Septic Tanks & Pump/Dosing Tanks

Rotational molding has proven to be the ideal method of producing a seamless one-piece tank, that minimizes the risk of leak points. Polyethylene has excellent corrosion resistance and chemical compatibility which makes it the ideal material for on-site applications. Small, single compartment septic tanks from Snyder Industries are preplumbed with 4" PVC inlet/outlet tees, gaskets, and manhole covers (20" diameter). They are a lower-profile, spherical product line that can be used in pumping, dosing, and holding applications.

Septic Tanks
 * Pre-plumbed with inlet/outlet tees, gaskets, manhole covers.

Part No.	Description	Dimensions
SN 94202-W	300 Gallon Sphere Septic Tank	48.5"L x 48.5"W x 49.5"H
SN 94203-W	500 Gallon Sphere Septic Tank	48.5"L x 48.5"W x 49.5"H
SN 43522-W	500 Gallon Sphere Septic Tank, Low Profile	48.5"L x 48.5"W x 49.5"H
SN 45802-W	500 Gallon Sphere Septic Tank, Low Profile	48.5"L x 48.5"W x 49.5"H
SN 41320-W	500 Gallon Sphere Septic Tank, Low Profile	48.5"L x 48.5"W x 49.5"H

* Not Pre-Plumbed and Not meant to be used as Dosing Tank
 † Call for FOB Shipping Points — Not All Tanks Ship from Same FOB Point

Pump/Dosing Tanks
 * Furnished with Manhole Cover ONLY

Part No.	Description	Dimensions
SN 43551-W	225 Gallon Sphere Pump Tank	48"L x 50"W
SN 94201-W	300 Gallon Sphere Pump Tank	48.5"L x 48.5"W x 52"H
SN 43552-W	300 Gallon Sphere Pump Tank Low Profile	51"L x 52"W
SN 41319-W	*300 Gallon Sphere Pump Tank	54"L x 54"W

SNI SNYDER INDUSTRIES, INC. Low Profile Cistern Tanks

Underground cistern tanks can be interconnected easily for increased storage capacity. All cistern tanks should be vented per installation instructions. No water is required during backfill installation. Low profile design allows for shallower excavations. Cistern tanks are provided with manhole covers only – no inlet or outlet cutouts are provided – fittings sold separate.

- Unique monolithic design provides superior top load strength
- Manufactured with FDA Approved Resin in NSF certified plants – rated for potable water
- Each Tank has (2) 20" Manholes

Part No.	Description	Dimensions
