Mag Meters

Designed to accurately meter liquids such as fertilizer, water, wastewater, deicing liquids and other liquids which are electrically conductive. No moving parts means less chance of damage than other styles of meter. Use with conducting liquids only. Not for Fuels.

Features: Simple & easy to use • Factory preset calibration requires no adjustment • Batch total and flow rate. Shuts down after idle for 12 minutes. • Digital readout is designed for outdoor use • Temperature range is 0° to 150° F. • Operates on six AA batteries • Off/On shutdown after 12 minutes • Warranty is 1 Year on electronics • All meter sizes hold +/-1% accuracy.

Part No.	GPM	SPECIAL

Quick Turbo Floodjet Nozzles

"Turbo FloodJet Nozzles" standard features include: • Unique orifice design that produces larger droplets for reduced drift and clogging • Precise spray distribution for dramatic improvement in pattern uniformity • Stainless steel construction with color-coding for identification • Grooved side molding for automatic alignment with any quick-connect coupler • Requires only 30% overlap, enabling the use of fewer, larger nozzles.

*Adjust spray height in the field to a minimum overlap approximately 30% of each edge of pattern.

Suggested Minimum Spray Height*	
Nozzle Spacing	Spray Height
40"	18 - 20"
60"	25 - 28"
