Overhead Valve Engines

HONDA
ENGINES

Recoil & Electric Starters HORIZONTAL-SHAFT

TX Series - Ideal for use as a Replacement Pump Engine

OHV Style. All Honda standard features plus transistorized ignition system, dual oil fillers, rewind starters, bottom intake air cleaner and oil alert feature.

GX390 11.7-HP SERIES (389cc)

The largest of Honda's single cylinder industrial engines. All standard Honda features plus CDI ignition with electronic advance, oil alert feature and automatic decompression release. Fuel tanks are 7.4 Qt.

Crankshaft: 1" diameter tapped 3/8-24 UNF with keyway.

GX390K1QA Standard Model: With rewind starter.

GX390

HONDA
ENGINES

4.8-HP GX160 Series (163cc)

GX160K1QXE: Same as GX160K1QX except with electric start.

GX160K1TX: Pump Engine has a 5/8"-18 threaded shaft and mounting flange for use with close-coupled Centrifugal pumps.

5.5-HP GX200 Series (196cc)

GX200QX2: Has a 3/4" O.D. Keyed shaft, drilled & tapped 5/16"-24.

CRX208CC

CRX208CC: 5.7HP / 208cc • Single Cylinder • 3/4" solid shaft • Dual element air cleaner • Low oil shutdown • .7 gallon fuel tank capacity • Recoil start.

CRX420CC: 12.1HP / 420cc • Single Cylinder • 1" solid shaft • Dual element air cleaner • Low oil shutdown • 1.6 gallon fuel tank capacity • Recoil start or 12-volt start with 18 amp alternator.

NH3 Control-Metering Systems with Heat Exchanger

45 GPM & 70 GPM

High Capacity, 1-1/2", 45 GPM NH3 Control-Metering Systems with Heat Exchangers. These kits come complete with heat exchangers, mounting brackets, control and shut-off valves and all required plumbing. All that's required is a controller and wire harness. Includes 1-1/4" full port, 120 degree control valve that increases your accuracy more than typical 90 degree control valves. Twin 1-1/4" valves also provide excellent accuracy and control at low rates as well as high rates.

Standard Features

- 45 GPM 1-1/2" System Complete with valves, forged steel fittings & mounting brackets.
- Heat Exchanger Includes Stainless Inner Tubes & Bonnets.
- Inlet Y-Strainer & Stainless Steel Ball Valve Included.
- 12-Volt Control & Shut-Off Valves with KZ Motors (Two Valves System Provides Optimal Accuracy).
- Heat Exchanger can be disassembled for Easy cleaning & maintenance.
- 1-1/2" Stainless Flow Meter (Sold Separately on LM Systems).
- Preassembled for Easy Installation.
- Systems with Meters Include Raven Stainless Meter.

RAVEN INDUSTRIES

AccuFlow™ Vortex System

Maximize levels of performance with the Raven AccuFlow™ Vortex cooler. The AccuFlow™ uses super cooling technology to stabilize NH3 as a liquid for superior accuracy and control. This pre-assembled system is the epitome of time savings. The AccuFlow™ Vortex allows you to apply more anhydrous at faster speeds and cooler temperatures, with less weight on the toolbar.

Other Key Benefits:

- Single or dual valve systems.
- Capable of up to 8 Sections & automatic section shut-off.
- Simple cooler disassembly for easier maintenance.
- Increased capacity with smaller footprint on toolbar.
- Advanced controls for high & low end application.
- ISO Compatible.

NH3 Pumps: Remote Shut-Off Systems • Decals & Equipment

Use Squibb-Taylor's NH3 Remote Shut-Off Systems to improve overall safety of your NH3 storage plant. The components shown below allow you to set up a system for both manual and remote shut-off of all your N550/N551 emergency shut-off valves in (3) important ways: **1)** From a remote office or shop. **2)** From a handheld remotes carried by your plant operators **3)** From various push button stations near your storage tank (*E-Stops*). **Note: Only for NH3 Use; Do Not Use with LPG storage systems or other systems storing flammable liquids.**

CORKEN. Coro-Vane® Pumps for LPG & NH₃

CORKEN® base mounted pumps are complete with base, V belt drive assembly and belt guard, 3 PH TEFC motor. Pumps are standard with FPT bolt-on flanges. Use 1-1/4" relief valve on 521/522 pumps; 2" on 1021/1022 pumps.

Coro-Vane® is a positive displacement pump line that is designed for stationary applications at bulk plants.

SPECIFICATIONS:

RPM: 420 - 950

Temperature:

-25°F to 225°F

Connections:

521: 2" x 2"

1021: 3" x 3"

* Use BV2 for propane in most cases; use BV2-70 for NH₃.

RSD-E Remote Controlled Shut-Off Panel

The **RSD-E Remote Controlled Shut-Off Panel** is the main component of your complete NH₃ shut-off system. It includes a built in receiver and one handheld transmitter. It is normally installed near the storage tank and includes a NEMA 4 outdoor rated enclosure. Can be located up to 300 ft. from the handheld transmitters (through normal building walls) and up to 400 ft. in "line of sight" with no walls.

Includes a 115V power cord with plug. It also includes a 12 volt wire harness to supply the P810 shut off devices on each N550/N551 emergency shut off valve. This 12 volt harness can also be wired to the RSD-A box (air solenoid junction box) for use with P539A pneumatic controlled shut off devices. 15 Amp rating will close twenty-five P810 valve shut offs simultaneously. Fail safe design provides for positive shut-off. Can be used with up to (15) RDS-E1 handheld transmitters.

HINIKER

Nitro-Lert™ for Rate Control Systems

The **Hiniker Nitro-Lert Anhydrous Ammonia Knife Monitor System** is the industry leading knife monitoring system which alerts operators to individually blocked manifold outlets, lines, or knives. Inline sensors monitor each outlet's flow variations, helping catch and correct potential application inconsistencies while also reducing downtime and overall product costs.

FEATURES:

- Monitor up to 80 individual outlets
- Detects plugged knives when operator turns flow off and on
- Signals potentially broken/blocked knives due to flow variation
- Audible system alarms alert operator to potential malfunctions
- User friendly interface — easy-to-read bar graph in-cab display monitor

Pump & Meter Units for Ag-Chemicals

**Pump & Meter Unit
for Transfer of
Ag-Chemicals & Other Liquids**

The PM2810 is an excellent pump and meter unit for transfer from bulk storage to portable containers. It is suitable for most all agricultural chemicals and herbicides. The 2" self priming **Flomax** Pump can be supplied either with a single phase or a three phase motor. The 40 GPM TCS Meter is NTEP Labeled. The register will record to 10,000 gallons. A Ticket Printer and Preset Valve are optional at added cost. Tee on pump discharge is included for "recirculation" plumbing back to tank.

The pump and meter are plumbed with iron fittings, one 1-1/2" stainless ball valve, cast iron strainer, stainless air eliminator and chemical hose. Steel stand.

Air Actuated Stainless Ball Valves

- 2-Piece -

These **Stainless Air Actuated Valves** incorporate a full port 2-piece stainless steel ball valve for great flow rates with minimal pressure drop. The valve features a blowout proof stem for added safety, reinforced PTFE seats and seals for longer life, and a 316 SS (ASTM CF8M) ball for better performance. Actuators are direct mounted creating a compact assembly for tight spaces.

DA Double Acting or SR Spring Return Actuator Models

Applications:

- Liquid or Gas Flow Control
- Ideal for Quick Bubble Tight Shut-Off

Also available with electric actuators (weather-proof or explosion-proof). Electric solenoids and limit switches.

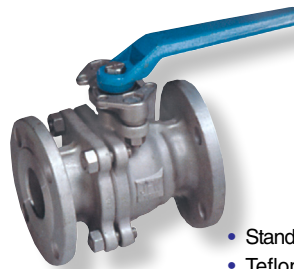

Features: Capable of being configured to fit most any application
• Vented ball to reduce operating torque • Full port design reduces the pressure drop across the valve. Rated to 1000 PSI at 250° F. and 29" vacuum • 80 PSI air required to actuate.

Other Sizes Available

For Spring Return, add "SR" at end of Part No.

SIMPLE AUTOMATION. FASTER STARTUPS. REAL 24/7 SUPPORT.

EAI
EASY AUTOMATION INC.

Easy-to-use plant automation systems designed to simplify operation and keep fertilizer facilities running efficiently.

Easy Automation systems are designed to reduce complexity on the plant floor. Operators get intuitive controls that are easier to learn, easier to manage, and easier to troubleshoot when timing matters most.

Combined with **Dultmeier Sales'** experience in fluid handling and system integration, we help fertilizer facilities improve efficiency, simplify installations, and keep product moving with less downtime and fewer operational bottlenecks.

ONE PARTNERSHIP. COMPLETE SOLUTIONS. FOCUSED ON YOU.

LIQUID FERTILIZER / CHEMICAL SOLUTIONS

Safe, accurate, and
efficient handling

DRY FERTILIZER

Reliable systems
built for performance

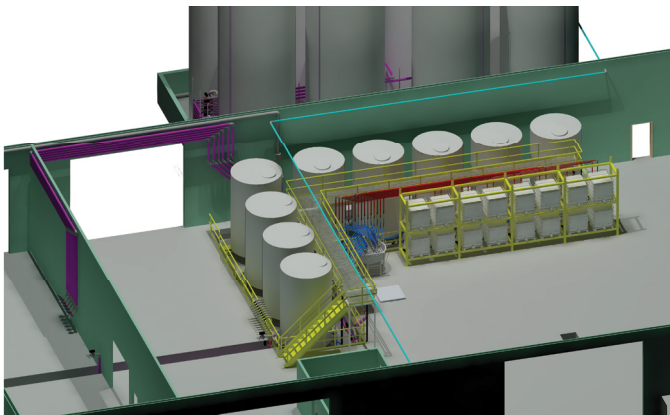

FEED MILL AUTOMATION

Smarter control.
Better throughput.

GRAIN HANDLING

Move, store, and
